

Vantage Group partners with airports from regional to international hubs, helping them become more efficient, sustainable, and connected. As developers and managers of \$8B+ in airport assets serving 80M+ passengers annually, our advisory services span small, medium, and large-scale airport and transportation center environments. Our solutions are backed by more than 30 years of real operational experience and tailored to elevate business performance.

THE VANTAGE ADVANTAGE

• **Passionate Airport Managers**

As airport managers - we're passionate about aviation and live it every day. We apply real-world operational learning to provide practical, implementable advisory services.

• **Full Lifecycle Experience**

Our team manages complete project lifecycles and lives with the results of our work. From \$2M regional developments to \$2B+ international projects - we deliver proven results.

• **Excellence Through Details**

Our attention to detail and diverse team expertise drives excellence. Access to specialized knowledge across our global portfolio.

OUR APPROACH

• **Collaborative problem-solving** leveraging resources from across our airport network portfolio. Real-time access to best practices and lessons learned from other operational airports.

• **Flexible, adaptable solutions** from decades of operating experience. Implementation-tested strategies that deliver measurable, on-time, on-budget results.

• **Committed staff support** based on integrity and transparency. Long-term partnerships with dedicated team members and milestone-driven accountability.

CORE EXPERTISE

We offer a full range of advisory services for complex, small, medium, and large scale airport and transportation center environments

Comprehensive Operations and Business Solutions

Provide airports with strategies and integrated systems to enhance efficiency, ensure regulatory compliance, and optimize operational performance and business growth.

Pre-Construction and Construction Services

Ensure airport projects are delivered on time, within budget, and with minimal disruption to operations. Terminal planning, design review, stakeholder engagement, and construction oversight with owner's perspective and operator's experience.

Commercial and Business Strategy

Enhancing airport services and boosting revenue through strategic commercial programming. Revenue optimization via non-aero revenue maximization, land development, car parking, commercial space programming, and market analysis.

Operational Readiness and Transition

Assure seamless launch of new or upgraded airport facilities through staff, systems, and operations preparation for real-world demands. Transition planning and implementation support demonstrated through complex transitions across our global portfolio.

Guest Experience Transformation

Transform guest experiences by leveraging our operational expertise across service delivery, sense of place, and operational flow. Whether implementing targeted improvements or developing comprehensive experience strategies, we help airports create memorable interactions that drive passenger satisfaction and business performance.
